

AUXILIARY SERVICES
Series 700

Policy Title: Fire Extinguishers

Code: 703.5

During a fire emergency, the main objective for educational staff must always be to exit students from the building as quickly and safely as possible by following the procedures outlined in the district's Emergency Management Plan. Educational staff should leave the use of fire extinguishers to trained district personnel.

Maintenance and custodial staff as well as district administrators will receive documented professional training on the use of fire extinguishers, followed by documented annual refresher training. Maintenance and custodial staff as well as district administrators shall make frequent inspections, giving special attention to conditions contributing to fire or accident hazards and factors that affect the health and comfort of students and employees.
