6th Grade Connections to History

On Friday, October 13th we had visitors from Carlisle, PA. Susan Rose and Jim Gerencser along with Barbara Landis taught our 6th graders a lesson on how to access the archives from the Carlisle Indian Boarding School online. Students learned a little about the sad tales of the students who were sent to the school and looked up Nez Perce children (or other relatives) who attended many years ago.

Story of Addiction & Recovery

Mike Scott presents a powerful presentation, which is based on the obstacles of his life. His story has been presented to over 280 communities in the past three years alone. Mike's story is similar to that of so many First Nations people across Canada and the United States who lived with or dealt with a drug and alcohol background. Mike was in and out of the foster care system and never had a stable upbringing as a child; He has been through many obstacles in his short 28 years of life including incarceration at the age of 12, over dosing at the age of 17, becoming a single father at the age of 19 and tragically losing his mother at the age of 23. Mike has finally broken the dysfunctional cycles that have plagued his family for years. He now travels and shares these stories, as a way to show youth and adults alike that change is possible! His presentation will show the reality of addiction and motivate people to open their own eyes to the cycles they face. Empowering young people to start becoming their own leaders and paving a positive way for future generations. Inspiring adults to want a brighter future for their youth and giving them the tools necessary to be able to relate and understand from their point of view.
