Nez Perce Education Standard:
Personal Sovereignty

Our district is proud of the direct input we gather from our parents, the Nez Perce Tribe, and Lapwai community, yet student voice in district-level decisions remained an area of improvement. I request nominations from district staff each fall to gather a focus group of Wildcats scholars to directly influence decisions that impact them and their schools.

Objective: To provide student voice in district policy and procedures, calendar and schedule planning, course electives, extracurricular activities, average daily attendance, school improvement, school safety, and Idaho State and Federal Impact Aid legislation. Thank you Lapwai School District staff for nominating such an outstanding group of Wildcat leaders.
