*Celebrations & Pictures of Wildcat Scholars
& the Dedicated Staff Who Serve Them*

Congratulations Lapwai Wildcats!

These resilient student athletes and their coaches persevered through a challenging season, navigating around unique health and safety requirements. Despite these obstacles, they demonstrated great success while modeling respectful, responsible, and safe behavior. On behalf of the Lapwai School District Board of Trustees, please know how proud we are of each and every one of you. Go Wildcats!

2nd Grade Tree Scientists

“We were talking about the hollow catalpa pods and their seeds are like people in a canoe. I also saw kids being kind to one another, sharing extra seeds from the trees or trading one type of seed for another. Really lights up my heart!”

Johna Boulafentis

Environmental
Outreach Specialist

Introduction to Golf

Although health and safety challenges delayed program planning for golf this year, the goal remains ensuring interested students are introduced to the sport. A Wildcat thank-you to Athletic Director, William Big Man, for coordinating opportunities during this transitional year. These future golfers are also surrounded with community support to ensure Lapwai students get some experience and opportunities to compete this spring.

Interested in coaching next year? Keep an eye on our website for details at Lapwai.org

We are seeking golf club
& equipment donations.

Please call (208) 843-2241 or
email wbigman@Lapwai.org

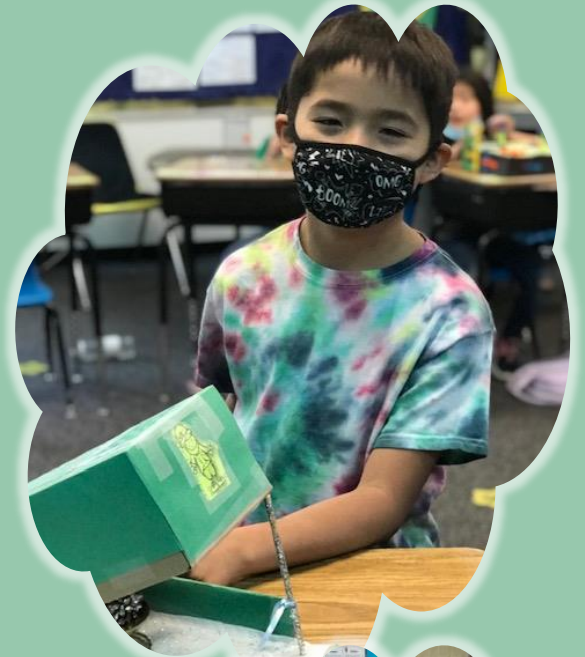

Mrs. Hewett & Mrs. Hillman's 2nd Grade Leprechaun Traps

Nez Perce Standard
Experiential Learning

2nd grade students built leprechaun traps at home with their families. They presented their creations to peers this week. They are engaged in a unit called, “Why do people work together?” These creative geniuses demonstrated working together has amazing results. Way to go Wildcat Scholars!

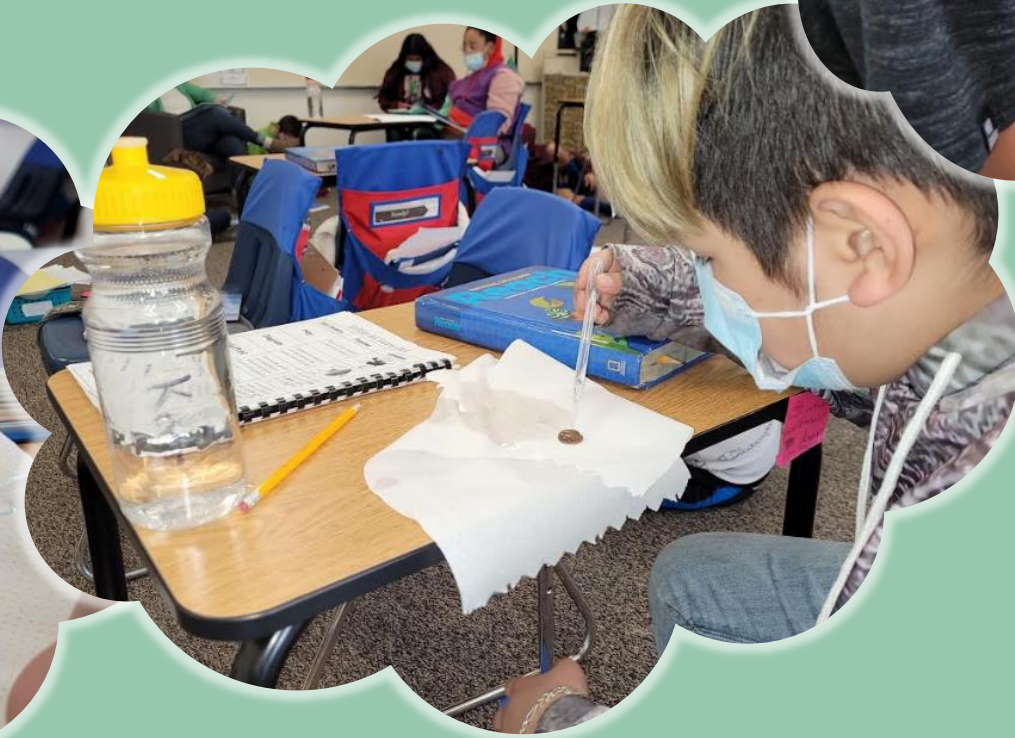

5th Grade Wildcat Scholars

Mr. Morgan's 5th graders are experimenting with surface tension. Their challenge was to test how many drops of water will fit on a penny without spilling off. The record this week was 27!

Mrs. Melton's Physical Education & Health Spotlight

Mrs. Melton is happy to have all the students back. We are back to learning and that is wonderful! PE is a favorite at the elementary and kids have been enjoying being back to learning in the gym. At the High School, students are taking advantage of a new health science class. The focus is on health occupations and career plans.
