Mindfulness for Kids

The 2021-2022 Superintendent's Faculty Cabinet objectives include action planning to support student and staff mental health and well-being. Recent efforts have included providing the Calm App to our interested colleagues as an employee benefit. This popular tool for sleep, mindfulness, meditation, and relaxation includes content for kids and use in the classroom.

Mindfulness is the practice of paying attention to the present on purpose with kindness and curiosity. Taking a moment to breath and refocus prepares growing minds for the learning ahead!
