Will you still have the same friends in 50 years?

Yes, I will because my friend group is very nice. We all care about each other, we take care of each other, and will do anything in our power to keep each other safe. - Aaron Ramsey

Why are milkshake machines in lockers a good idea?

It is a good idea to have a milkshake machine in our locker because it would be a good snack for us after we have finished our work and we will feel full and refreshed after we drink it. Then we can get back to learning more. Also we would never get hungry with those milkshakes in their lockers. It would probably make everyone in a better mood with locker milkshakes. - Arika Scott

What's the most important thing a good leader needs, and why?

The most important thing a good leader could do is listen to kids because their opinion matters just as much as an adults. They also need to never leave anyone out, and make sure everyone is included. A leader needs to be nice and patient, and they need to be respectful and be responsible. - Opal McCormack
