3. What are some challenges you've faced to get to where you are?

His Response: **"Take as much as you can of what people tell you, because in my place now, I wish I remembered everything I said I would."**

"My name is Madison Stillman and I am currently a senior in high school. I have been a cheerleader, going on 3 years now. This includes cheering for football and basketball. Cheer at Lapwai is very different from other schools. We have very limited players and it varies each year so we never really know who we're going to end up with at the end of the year. I was always told I have a very loud voice and I always wanted to be a cheerleader when I got to high school. I remember one of the past alumni Preslee Moses was the one who recruited me to participate. My favorite part about cheerleading, besides the bus rides to the away games ☺, would be when I get flooded with adrenaline when the crowd is roaring with us."

Impact Aid

Approximately 31% of the school's operating budget is in the form of Federal funds called Impact Aid. With a new president in office, the impact aid has been put on hold. For the second year,

Mrs. Scott and her talented drama students assisted the superintendent with a video for Idaho's Congressmen thanking them for their support of these critical funds. From the Lapwai School District, Mr. David Aiken is also the Idaho State Chair of the National Association of Federally Impacted Schools. He will be leaving to Washington D.C. in late September to meet with Congress.

The purpose of Impact Aid is to provide formula grants to school districts burdened by the presence of nontaxable federal land and installations. Impact aid is responsible for educating children of federal personnel who live and/or work on these properties.

Later this fall parents will be requested to complete residency and employment surveys to ensure the highest Lapwai School District allocation for Impact Aid. Your support of Impact aid can give the students of Lapwai Middle/High School a great education.
