### **ATTENTION WILDCATS**

Do you want to work for the journalism team? Well we will be taking on applicants from grades 8-11. We want to be able to pass down the titles of Chief-Editor, Reporter, Anchorman, and Tech person to students willing! For more information, come to the Higher Education room, or seek out Chloe, Heewekse, Bobby, or Pox.

### **Where to Find Help**

There are plenty of times when as students you need help with academic advise or motivational advice. It is somewhat hard to find the right person at school, but if you come to the Higher Education room, you can ask all of your questions with Eric Gower, Josh Nellesen, or Randi Bennett. They will always try to help you with your needs.

# Student Spotlight

## Dawn-Rose Ratcliff

This week's student spotlight is Dawn-Rose Ratcliff who is an outstanding student with a huge GPA. Her favorite extracurricular would be her job, and her favorite class would be lunch because she loves food, who doesn't! Her biggest academic challenge has been her French online class, a class she took in her freshman year, and the ACT's. Dawn-Rose has used studying to help her get through these obstacles. Her greatest accomplishment has been her GPA with only having one B freshman year. Dawn-Rose also had the highest score Nellesen has ever seen! We asked if she was going to retake the test and get a higher score, and her response was "ALWAYS". Thank you to this week's Student Spotlight; Dawn-Rose Ratcliff.

## IDLA PREP!

Many students may not have had IDLA in the past, and may not have learned what to expect. We are here to help you! IDLA is what you will expect in college, so it is good to prep yourself! You have to go through orientation, and it is VERY important to get in your work ON TIME. You can also meet other students in your online class and interact with them. IDLA may be a little bit harder than school here, but it pays off in the end and gives you a taste of what school in the future will be like. IDLA is where it's at!
